

Find the right metric for our question

THE SITUATION

We wanted to know which of our Gumroad products monetizes best

Revenue? Skewed by volume.
Downloads? Vanity metric, not money.
Conversion? Funnel, not value.
AOV? Almost all the products are free.

I'm trying to answer this question: [Q].
I currently have these metrics: [list].
What metric would answer this most precisely?
If none work alone, suggest a composite and explain why it's more accurate.

Bypass permissions

WHAT WE GOT

‘Revenue per unique downloader’ metric.

Composite, clean. Wouldn't have thought of it alone
